Project Description	The purpose of this project is to purchase and renovate a large warehouse building to be used as a Safe Stay Community for unsheltered individuals. The property consists of approximately 13.05 acres improved with a 129,491 square foot industrial building and parking area. This property will operate as a Safe Stay Community full service shelter. Safe Stay Communities provide spaces where people living unsheltered can safely stay while engaging in necessary supportive services to aid them in exiting homelessness. The building will contain approximately 140 sleeping cabins indoors and a large parking area outdoors with 50 parking spots designated for unsheltered individuals living in vehicles.

Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The objective of this project is to provide low-barrier, full service, non-congregate shelter and supports for those experiencing homelessness and living in encampments. The shelter program will serve as a Stay Safe Community and reduce the number of scattered encampments in the unincorporated County.

Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Those experiencing homelessness were disproportionately impacted by COVID-19, in that living unsheltered, in congregate settings, and without access to housing, health and other critical services creates disparity. Efforts address these needs, including support moving out of congregate settings into non-congregate and permanent housing, help to relieve these impacts.

Project Description	This project is structured to provide direct grants of \$10,000 each to four community publication small businesses in Sacramento County that have been negatively impacted by COVID-19. The pandemic has further increased financial and operational challenges for the newspaper industry. These grants will support these businesses as they recover from the pandemic.
Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	8 Imp SBs that experienced a negative economic impact
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	This project is structured to provide direct grants of \$10,000 to community publication small businesses in Sacramento County that have been negatively impacted by COVID-19. The newspaper industry was economically impacted by COVID-19 as they lost subscriptions and advertisement revenue due to the temporary shut down of retailers and community events, and experienced increased expenses related to COVID-19 health measures and supply chain delays.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Small businesses have experienced significant negative economic impacts due to COVID-19. This project will require each small business to complete a Risk Assessment and Beneficiary Questionnaire Form to evaluate the negative economic impact and eligibility for funding. The grants awarded to mitigate financial hardship will be reasonable and proportionate to the impacts experienced.

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The COVID-19 pandemic impacted retail food establishments in Sacramento County due to state and local public health orders that required takeout and delivery options only, dining-room closures, or reduced hours. Some retail food establishments experienced closure altogether, such as snack bars at movie theaters, food courts at malls and operators at event centers. In addition, many retail food establishments experienced unexpected expenses to meet safety measures, such as PPE for employees.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The retail fee health permit waiver program is intended to provide economic relief to retail food businesses that were disproportionately impacted by the COVID-19 pandemic by providing a fee waiver for the 2023 retail food health permit fee.

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The purpose of this project is to provide non-congregate safe and secure housing for homeless veterans and homeless families. The number of individuals reporting they have been homeless for three or more years rose from 41 percent in 2019 to 59 percent in 2022, suggesting it may have been more difficult for individuals to exit homelessness during the pandemic.
Brief description of recipient’s approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Homeless individuals and families have been disproportionately impacted by COVID-19 as living unsheltered in congregate settings and without access to housing, health, and other critical services creates disparity. Efforts to address these needs, including support moving out of congregate settings into non-congregate and permanent housing, help to relieve these impacts.

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Throughout the County, non-profit community-based organizations (CBOs) improve the quality of life by providing educational, health, and social services to citizens in need of support, beyond the services generally provided by local governments. Through their unique connectivity to the communities they serve, CBOs can impact hard-to-reach and traditionally underserved populations, which were disproportionately impacted by COVID-19, in a culturally sensitive and equitable manner.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	As CBOs execute their core mission, they often focus on investing in programmatic development and expansion, as opposed to investing in their core infrastructure and leadership which is critical for organizational growth, strategic planning, marketing and outreach, and obtaining and managing government grant funding. Strengthening operations through the development of core infrastructure and leadership will enable CBOs to deliver services to underserved populations in a more effective manner.

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Sub-acute beds provide a less expensive alternative, as well as recovery-oriented rehabilitative treatment, for adult clients with behavior health needs. Additionally the use of sub-acute facilities can provide relief to hospitals (e.g. inpatient, emergency departments (EDs), etc.) with patients waiting for placement. Those with mental health needs were disproportionately impacted by the pandemic.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	This project will prevent loss of capacity as well as create new capacity within the sub-acute continuum of care and ultimately reduce acute psychiatric hospital costs. Increased availability in hospitals will also result in cost savings and increased response to other community needs (e.g. COVID).

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Treatment capacity has diminished as a result of the pandemic, with 54% of behavioral health organizations having to close programs and 65% having to cancel, reschedule or turn away patients. From 2020 to 2021, during the height of the pandemic, drug overdose deaths rose by 15%. This project looks to increase bed capacity by 140.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Residential treatment is designed to address functional challenges related to substance use disorders and to restore, maintain and practice interpersonal and independent living skills, along with access to community support systems. Services support people in care to develop and demonstrate recovery skills needed to avoid immediate relapse and/or high-risk behaviors. All services are individually tailored to the person in care based on their needs.

	The purpose of this project is to develop and implement a Fentanyl Education and Awareness Campaign through Arrive Alive California (AAC) Inc. due to increased overdose deaths and fentanyl poisoning of youth in the community. The campaign will be directed at alerting three

Project Description	diverse audiences about this threat: 1) youth/young adults, 2) parents/guardians, and 3) general population. AAC's programming provides an interactive experience for youth by heightening awareness and recognition that fentanyl poisoning is a real problem that effects real lives. Reaching the youth, parents/guardians, and general population is crucial and a robust, multi-faceted approach is required. AAC will facilitate the Fentanyl Education and Awareness Campaign, with subject matter experts, through active participant programming, school assemblies, classroom instruction, town hall meetings, and parent workshops.

	This project will consist of enhancing the Sacramento County Primary Care Center's telehealth capabilities and

Project Description	providing health care services to prevent the spread of COVID-19. Primary care services, including outreach to patients and vaccine services, helps prevent the spread of COVID-19 and improve health outcomes overall for some of the most vulnerable community members. Telehealth services enhance the Center's ability to provide remote visits and reach patients with significant mobility or transportation barriers. This project will include the purchase of personal protective equipment, as well as laptops, iphones and software licenses to increase access to remote visits and provide health services in the community for the unhoused population.

Current Period Obligations	\$5,510.27
Current Period Expenditures	\$5,510.27
Project Description	The purpose of this project is to provide staffing to assist County departments to accurately track the County's COVID-19 Vaccination Testing Program. The program will ensure the County's compliance with State Public Health Orders which began requiring vaccination for workers in specific high-risk facilities. The County implemented the COVID-19 Vaccination Testing Program to assist departments in tracking program requirements, employees' COVID-19 vaccination status, and COVID-19 testing results. Customer service needs for departments have grown to require administrative tasks such as enrollment and disenrollment, leave tracking reporting, and program guidance. Reporting includes department statistics, exemption requests, testing lists and non-compliance tracking. The General Public will be positively impacted by providing a healthy workforce to administer public services and reduce the spread of COVID-19 to individuals in high-risk facilities. The intended outcomes are compliance with COVID-19 regulations, increased safety in the

	workplace, customer service to departments, and administration of the COVID-19 Vaccination and Testing program.

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The objective of the COVID-19 Vaccination and Testing Program is to accurately and effectively track the County of Sacramento's COVID-19 vaccination and testing activities. Staff will create and implement a countywide policy and program guide, standardize reporting, identify and train department coordinators, and communicate requirements to departments and employees.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The County of Sacramento's approach is reasonable and proportional to the negative impacts of COVID-19 as the program strives to ensure services to the public occur in a safe environment. The scale of this project includes funding 3.0 FTE to administer the County's COVID-19 Testing and Vaccination Program and ensure compliance with public health orders for an organization of over 11,000 employees.

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The COVID-19 pandemic impacted retail food establishments in Sacramento due to state and local public health orders that required takeout and delivery options only, dining-room closures, or reduced hours. Some retail food establishments experienced closure all together, such as snack bars at movie theaters, food courts at malls, and operators at event centers. In addition, many retail food establishments experienced unexpected expenses to meet safety measures, such as PPE for employees.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The retail fee health permit waiver program is intended to provide economic relief to retail food businesses that were disproportionately impacted by the COVID-19 pandemic by providing a fee waiver for the 2022 retail food health permit fee.

Project Description	This project will allow for the development of a web-based Encampment Management Information Tracking (EMIT) database for County staff and contractors so they may track and manage responses to homeless encampments throughout the County. The EMIT database will support the County's overall effort to provide services to encampments by helping to expedite responses, coordinate deployment of social services, and track program efficacy. Funding will be used to hire staff to complete the buildout of the EMIT application with database reporting tools and to train end users. The first phase of database design and prototype development will begin in early 2022, and the second phase will integrate the EMIT database with various other county systems in order to improve the delivery of outreach, shelter, and housing services to those living unsheltered in the County.

Project Description	The purpose of this project is to provide medical services for individuals currently participating in the Project Roomkey program. Project Roomkey provides shelter for those who are homeless or have unstable housing. Through the program, a nursing team is utilized to evaluate the health and safety of Project Roomkey residents who experience an elevated likelihood of health issues, medical emergencies, and contraction of COVID-19. The Project Roomkey model has specific isolation units for COVID-19 positive residents that need higher levels of monitoring and care. The medical team assesses patient vital signs, answers medical questions, and explains complications, while calling for appropriate

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The purpose of this project is to provide medical services to individuals experiencing homelessness whom were disproportionately impacted by COVID-19. According to Johns Hopkins University's Coronavirus Resource Center, the highest single 7-day rate of positive COVID tests for the United States between June and October was 7.8% (falling as low as 4.0% in that time). The National Health Care for the Homeless Council reported homeless COVID positivity rates between 9-12% for that period.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	People experiencing homelessness have been disproportionately impacted by COVID-19; therefore, our response to building a medical team to support the health needs of residents is proportional to the crisis at hand. Investing in medical care at Project Roomkey sites assists in the prevention of infection and ensures proper care during isolation for those infected.

Project Description	This project will allocate funds for emergency services-related grants for volunteer fire districts located in District 5. ARPA allows for expenditures related to emergency medical response expenses and many of the volunteer fire districts located in District 5 lack the financial resources to provide a level of service on par with incorporated cities within the County. Additionally, many of the constituents served by the districts have been impacted or disproportionately impacted by the pandemic. These volunteer fire districts serve as a critical resource for the community and operate on limited resources, which have been further strained during the pandemic and continued state of emergency declared by the Governor on March 4, 2020, and have not directly received other sources of recovery-related funding.

Project Description	This project will allow for the purchase of equipment for the Emergency Medical Services (EMS) division within the Department of Health Services. EMS is a primary responder during an activation of the Emergency Operations Center and is an integral component of the County's personal protective equipment and medical supply distribution network. EMS requires sufficient equipment and supplies in order to carry out these responsibilities. A larger truck is necessary to safely tow the Mobile Medical Shelter generator. Purchase of the truck and requested items will address specific deficits observed by EMS during the response to the COVID-19 pandemic. These items will allow EMS to safely and rapidly deploy temporary facilities in the event of a COVID-19 resurgence or Emergency Operations Center activation and will enhance staff and volunteer safety during an emergency.

Project Description	This project will allocate funding to the Sacramento Area Sewer District (SASD) to fund the design portion of the Hood and Franklin Community Septic Conversion Project. Hood is an unincorporated community located along the Sacramento River and State Route 160, 15 miles south of Sacramento and is a Severely Disadvantaged Community based on median household income. Franklin is an unincorporated community located between Franklin Boulevard and the Union Pacific Railroad (UPRR), north of Hood-Franklin Road and is a Disadvantaged Community based on median household income. The project will allow for the conversion from old septic systems to the SASD system. Many of the septic systems were installed in the 1970s and are past their useful life. The Hood community consists of 76 residential parcels, 13 commercial parcels, and 52 vacant parcels, while there are 30 residential parcels, 10 commercial parcels, 1 public school, and 7 vacant parcels in the Franklin community. SASD will serve as the lead on the project and will utilize the District 5 ARPA allocation to perform project design, allowing the project timeline to advance as much as two years, with construction estimated to be completed in fall 2025.

Project Description	Sacramento County Social Health Connect, a Social Health Information Exchange (SHIE), will support COVID-19 mitigation efforts and serve low-income communities through the development of countywide data infrastructure that links medical, behavioral health, social service, and housing data from multiple sources. SHIE is a technology system that will allow department programs to make data driven decisions and will allow program staff to run dashboard-based queries to identify specific vulnerable populations that need to be prioritized for different types of care and evidence-based interventions in order to mitigate negative health outcomes. SHIE will enable care coordination between health and social service providers in the County and support health equity by allowing providers to quickly identify and serve vulnerable, low-income individuals during emergencies such as COVID-19. The project is focused on serving low-income households who are Medi-Cal beneficiaries or eligible for Medi-Cal.

	The River District community is the home of some of the largest numbers of unsheltered encampments in the County, as well as the home to many homeless shelters and social service programs. The District is heavily impacted by the presence of encampments, and those living unsheltered in the District are in need of services to successfully transition out of homelessness. Recognizing the disproportionate

	The County has committed significant resources to address the needs of people living unsheltered on the American River Parkway and to address the impacts of homeless encampments on the environment. Having access to dedicated supports, including shelter beds, is a critical part of these efforts. SLFRF funds will be used support Salvation Army Center of Hope shelter operations from May 1, 2022,

Project Description	through December 31, 2024. The shelter is near the Parkway and through the program, 60 beds will be prioritized for those exiting the portion of the Parkway between Interstate 5 and Highway 160. The Salvation Army will provide 24-hour staffing, food, laundry, case management and re-housing supports for individuals sheltering at their facility. With the additional services from the Parkway navigation teams (including one-time housing funding), and coordination with behavioral health access clinicians, it is anticipated that the beds can turn over up to three times annually, allowing 180 people to be safely sheltered as they exit homelessness.

	This project will provide funding to sustain the Substance Use Respite and Engagement (SURE) Center program through June 30, 2023. The SURE Center was opened by

Project Description	<p>WellSpace Health during the COVID-19 pandemic to reduce impacts on emergency rooms and the Sacramento County Main Jail, while also providing substance-use treatment linkage to SURE Center clients. The SURE Center provides short-term (4-12 hours) recovery, detoxification, and recuperation from the effects of acute alcohol or drug intoxication with a primary emphasis on clients with methamphetamine addiction. Without this partnership, all participants in the SURE Center will either be transported to area Emergency Rooms or placed in the County Jail. The intended outcome of this project is to serve those in need of substance use services, which have been exacerbated by the COVID-19 pandemic.</p> <p>Research has shown an increase in alcohol and drug use since the pandemic began. However, access to care has been limited due to factors such as limited mental health staffing. The SURE Center has a diversified staffing model that ensures adequate services are available to clients who are struggling from alcohol and illicit substance use or substance misuse. The SURE Center picks up clients from underserved neighborhoods which were impacted severely due to COVID-19, and after stabilization, returns the client to their neighborhood, thus reducing the disruption of a client's natural supports.</p>

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The goal of this project is to reduce impacts on emergency rooms and the Sacramento County Main Jail, while also providing substance-use treatment linkage to SURE Center clients. Compliance with social distancing directives and self-isolation have perpetuated mental health issues and substance abuse. Additionally, individuals struggling with substance abuse have higher risks associated with COVID-19 due to compromised health and comorbid health conditions.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Substance abuse strains local health and safety resources as many intoxicated residents end up in local jails or hospital emergency rooms to withdraw from drugs or alcohol. The goal of this project is to reduce impacts on emergency rooms and the Sacramento County Main Jail, while also providing substance-use treatment linkage to SURE Center clients.

	This project addresses the negative impact of academic disruption and remote learning as a result of the COVID-19 pandemic on foster children, families, and caretakers involved with the child welfare system. For decades, foster children have been behind their non-foster peers in educational outcomes and are less likely to graduate from high school. This negatively impacts social determinants, such as employment, self-sufficiency, health, and overall well-being. The COVID-19 pandemic has resulted in even

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	This project is structured to provide direct grants of \$5,000 to small business and non-profit organizations in unincorporated Sacramento County that have been negatively impacted by COVID-19. Small businesses and non-profit organizations were economically impacted by COVID-19 as they lost revenue when required to close in-person operations, experienced workforce challenges, and had increased expenses related to COVID-19 health measures.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Small businesses and non-profit organizations have experienced significant negative economic impacts due to COVID-19. Project will require each grantee enter into a contractual agreement with the County. Grantees may only request funds for specific and documentable expenses due to the negative economic impacts of the COVID-19 pandemic.

Project Description	This project addresses the impact of COVID-19 on African-American community members residing in seven distinct neighborhoods throughout the County, as well as families of all racial/ethnic backgrounds living in the lowest socio-economic areas of the County, with high rates of crime, child abuse, and neglect. These areas were disproportionately impacted, not only by higher rates of COVID-19, but also by higher rates of homelessness, unemployment, lack of childcare options, food resources, and other quality of life issues. This trauma-informed project will fund community-based organizations to conduct home visits, host community events, and provide assistance with health, mental health, transportation, and other basic needs in the community where stressed families live. This project will use Family Support Navigators to assess the immediate needs of children and families, provide direct support, and provide referrals to community resources and services to help stabilize and strengthen families.

Project Description	The County will create a robust and flexible system for working with landlords and social service providers to quickly and permanently re-house people experiencing homelessness. Through a competitive bidding process, the County will select contracted providers who will develop and maintain relationships with landlords in the community and match housing opportunities with people in need. The providers will support both the client and landlord with fiscal incentives, such as holding fees and damage funds, while providing on-going tenancy supports, eviction prevention and other services. The providers will work across programs in the community to increase the efficacy of existing voucher and subsidy programs by augmenting them with tenancy supports and landlord engagement. Through the program, eligible clients may have their rent subsidized for up to 18 months. The primary goal of the Landlord Engagement and Assistance Program is to increase positive exits to housing from both sheltered and unsheltered homelessness.

Project Description	The District Attorney's Office will conduct a two-year countywide public service announcement (PSA) campaign alerting the public about counterfeit prescriptions pills, containing deadly fentanyl, which are flooding the Sacramento area. The District Attorney's Office will work with a public relations agency to target three main audiences, including the general population, parents/guardians, and youth/young adults. The key messaging points are: one pill can kill; if you didn't get it from a pharmacy, it's fake; and more people are dying from fentanyl poisoning than firearm-related homicides. Multi-language versions will also be created as often as possible. The campaign will include PSAs for different media platforms, including television/radio, online/social media, digital billboards, public transit, print publications, and community events.

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	During the pandemic there was a drastic rise in fentanyl overdoses and deaths due to the spread of fentanyl throughout the community. From January 1, 2020, to December 31, 2021, there was a 32% increase in fentanyl-related deaths in Sacramento County. People in Sacramento County are now dying from fentanyl poisoning at higher rates than gun-related homicides. From January 1, 2020, to December 31, 2021, Sacramento County had 157 homicides with guns and 198 fentanyl-related deaths.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	This project is a long-term, countywide response to a public health danger that has impacted and threatens everyone in the community. The campaign is designed to saturate the entire Sacramento County region with PSAs informing the entire public about the fentanyl epidemic covering the general population, youth, young adults, and parents/guardians across multiple platforms.

Project Description	identified key critical system gaps specific to accessing homeless prevention and assistance, coordination between providers, identifying the availability of services, and provider effectiveness in helping individuals quickly avoid or resolve their housing crisis. Sacramento Steps Forward (SSF), the lead applicant for the Continuum of Care (CoC), is leading a community effort to begin to improve this system which involves two inter-related but distinct features: 1) coordinated access to initial crisis response, prevention, and homeless assistance; and 2) coordinated access to rehousing assistance. The Coordinated Access System will utilize 211, a telephonic resident information and referral service, to provide a “front door” to homeless prevention and supportive services offering consistent access to immediate problem-solving and emergency assistance for people experiencing a housing crisis. Assistance through 211 will be provided in multiple languages and is accessible for persons with disabilities. Service connections and referrals will be provided by trained information and referral specialists, 24-hours a day.

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The County will contract with SSF to manage the development of the project and subcontract with other community-based organizations to deliver program components. The objective of a Coordinated Access System is to improve efficacy and access to preventative and homeless services and to better measure and report on outcomes of these efforts.
Brief description of recipient’s approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Efforts to provide preventative services and address the needs of homeless individuals, including support moving out of congregate settings into non-congregate and permanent housing, helps to relieve the disparity experienced by this population.

Project Description	This program is structured to provide portable restrooms and hand washing stations to people experiencing unsheltered homelessness. The objectives are to provide individuals living outside with safe and sanitary restrooms and the ability to wash their hands with the end goal of reducing likelihood of contracting COVID-19 and other negative health outcomes. The relationship between negative health outcomes and homelessness is well documented, with the dramatically heightened risk of a wide range of health problems, including mental health and substance-related problems, hypertension, diabetes mellitus, upper respiratory infections, and gastrointestinal and podiatry problems. According to the Center for Disease Control, because of these higher rates of serious medical problems among other items, people experiencing homelessness are at a greater risk of contracting COVID-19.

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	This program is structured to provide portable restrooms and hand washing stations to people experiencing unsheltered homelessness. The objective is to provide individuals the ability to safely use the restroom and wash their hands to reduce the likelihood of contracting COVID-19 and/or other negative health outcomes.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The relationship between negative health outcomes and homelessness is well documented. Lack of access to basic sanitation services, including clean water, is a significant contributing factor to life-threatening conditions, including COVID-19. As such, sanitation services to support people experiencing homelessness is proportional to the public health impacts of COVID-19.

Project Name: Florin-Power Inn Road Safe Stay Community

Current Period Expenditures	\$593,738.40
Project Description	The Florin/Power Inn Safe Stay Community project is a holistic response to the crisis of unsheltered homelessness. This program will help transition occupants of encampments into longer-term shelter and permanent housing and reduce the number of unsanctioned encampments in the unincorporated County. The Safe Stay Community will be professionally operated by a contracted community-based organization who will be responsible for day-to-day operations, managing third-party vendors, developing individualized service plans, and coordinating with the County and other service providers. This program will help transition occupants of encampments into longer-term shelter and permanent housing and reduce the number of encampments in the unincorporated County. The Safe Stay Community will consist of 100 Pallet Shelters along with onsite shower and restroom facilities for clients, as well as onsite offices and meeting rooms for operations staff. The perimeter will be secured with fencing and privacy shading, and security offices will be located at the access gate to control vehicular and pedestrian access to the site. Additionally, the community will have a large, shaded common area for community gathering with a section for pet relief.

Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The County's objective is to provide non-congregate sheltering opportunities for those experiencing homelessness. The shelter program will serve as a stay safe community and reduce the number of scattered encampments in the unincorporated County.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Those experiencing homelessness were disproportionately impacted by COVID-19, in that living unsheltered in congregate settings and without access to housing, health, and other critical services creates disparity. Efforts to address these needs, including support moving out of congregate settings into non-congregate and permanent housing, help to relieve these impacts.

Description	Sacramento County provides emergency life-saving ambulance services to Project Roomkey motels that provide shelter and COVID-19 health support to persons experiencing homelessness. These transportation services are important and necessary as the population residing within Project Roomkey have significant health needs that at times escalate beyond what can be addressed onsite by County Health Services. Due to the nature of these calls being urgent and in order to offload these calls from the general 911 dispatch line, Project Roomkey and Sacramento County benefit from a dedicated line to support this program and population. In addition, this service is utilized to transport COVID positive persons to Project Roomkey hotels.
